

ECOPHON AKUSTO™ WALL C EXTRA BASS

WHERE SPEECH QUALITY MATTERS MOST

Unique
combination
of both Class A
and low frequency
sound absorption

Low

DEVELOPED FOR LEARNING ENVIRONMENTS

People learn better when they hear better. It's obvious. But so many children, or even adults, have issues that make learning more difficult, especially in places where acoustics are not optimal.

Akusto Wall C Extra Bass is a class A wall absorber system that increases speech understanding and lowers noise over a broad frequency spectrum. What makes Akusto Wall C Extra Bass unique is that it effectively reduces low frequency sounds. These include:

- Mechanical ventilation
- Scraping chairs
- Closing doors
- Footsteps
- Voices
- Traffic noise

frequency

MAKING HEARING MORE INCLUSIVE

Education is vital to both individuals and society. But many people today have learning difficulties. These include:

- Different types of hearing
- Visual
- Speech
- Cognitive problems

All of these people benefit from low frequency noise absorption. In fact, everybody benefits by hearing better and feeling increased comfort in their surroundings.

Akusto Wall C Extra Bass increases absorption of lower frequency sounds, something that has been difficult to achieve. Until now.

Normal wall panels have a much lower sound absorption in low frequencies, which is what makes Akusto Wall C Extra Bass so unique.

AKUSTO WALL C EXTRA BASS

- The system includes Connect Shadow Profile. Akusto Wall C is visible while an added absorber is hidden behind the profile
- System thickness is 80 mm, due to the design it looks like 40 mm
- Length of panels is 2700 mm and width is 600 mm easily installed within the system

COLOURS AND SURFACES

- Available in many different colours
- Choose from surfaces in Texona & Akutex FT

INSTALLATION

- Connect Shadow Profile, grey 03

AKUSTO WALL C EXTRA BASS OVERVIEW

Feature	Performance
Circularity	Minimum of 60% post-consumer recycled content. Product is fully recyclable.
Indoor air quality	Eurofins Indoor Air Comfort, French VOC A
Fire Safety	Europe standard EN 13501-1, Class A2-s1,d0
Cleanability	Daily dusting, vacuum cleaning and weekly wet wiping (Akutex FT surface). Weekly dusting and vacuum cleaning (Texona surface).
Humidity resistance	Class C, relative humidity 95% and 30° C, according to EN 13964:2014
Environmental Footprint	<p>Akusto Wall C Extra Bass/Texona 10,8 Kg CO₂ equiv/m² (Akusto Wall C Extra Bass EPD in conformity with ISO 14025 / EN 15804)</p> <p>Akusto Wall C Extra Bass/Akutex FT 10,4 Kg CO₂ equiv/m² (Akusto Wall C Extra Bass EPD in conformity with ISO 14025 / EN 15804)</p>

Acoustics

THK mm	o.d.s. mm	α_p , Practical sound absorption coefficient						α_w	Sound absorption class

This publication shows products from Ecophon product range and those of other suppliers. The specifications are intended to provide a general guide to which products are most suitable for the preferences indicated. Technical data is based on results obtained under typical testing conditions or long experience in normal conditions. The specified functions and properties for products and systems are only valid on condition that instructions, installation diagrams, installation guides, maintenance instructions and other stated conditions and recommendations have been taken into consideration and followed. Deviation from this, such as changing specific components or products, will mean that Ecophon cannot be held responsible for the function, consequences and properties of the products. All descriptions, illustrations and dimensions contained in this brochure represent general information and shall not form part of any contract. Ecophon reserves the right to change products without prior notice. We disclaim any liability for misprints. For the latest information go to www.ecophon.com or contact your nearest Ecophon representative.
© Ecophon Group 2022

Ecophon is the leading supplier of indoor acoustic solutions that improve working performance and quality of life. We believe in the difference sound can make to our everyday lives, and are passionate advocates for the importance of room acoustics to people's wellbeing – whatever the space, activity or need.

Having a sound effect on people is the principle that guides all we do. We're proud of the Swedish heritage and human approach that promise is founded on. Our uncompromising commitment to transparent sustainable practice. And, as members of the Saint-Gobain Group, to be doing our part in making the world a better home.
