

# Case Study

## Leisure

### **Private swimming Pool, Saffron Waldon**

#### **Facts about the project**

Saffron Waldon Swimming Pool, United Kingdom

Contractor: 3 Dimensions

Project size: 216m<sup>2</sup>

Products: Ecophon Meditec A, Connect C3 grid

3 Dimensions is a Cambridge-based fit-out and refurbishment solutions company that was part of a team who were refurbishing a private client's swimming pool.

When they needed advice on hygiene tiles and cost effective ceiling solutions, they came to Ecophon.

A new wall-to-wall suspended ceiling system was installed beneath the existing blue timber slatted under-roof lining using Ecophon Meditec™ A on C3 grid. The tiles provide excellent sound absorption in an otherwise very noisy pool environment and can withstand the regular disinfection/cleaning that is necessary in a pool area.
